

THE WORLD OVER

AIRMAIL SERVICE OCTOBER 1ST

MONTREAL—Regular air mail service will begin October 1 between Winnipeg and Vancouver, Lethbridge and Edmonton and Regina and North Battleford, according to an announcement made by George Herriot, chief superintendent air and land mail service, post office department.

The Canadian National Express will begin shipping on Trans Canada planes between Winnipeg and Vancouver on Monday. The big T.C.A. Lockheed 14's transports, similar to the plane used by Howard Hughes on his round-the-world flight, will fly by night. They have accommodation for 2700 lbs. of mail and express.

BRITAIN TO BUY 400 U.S. PLANES

WASHINGTON.—Great Britain has taken the first legal steps for purchase of 400 airplanes in the United States. The State department announced that arms export committee is talking \$1,152,229 in value had been issued Great Britain in August. This provided in part for export of 200 observation planes and 200 training planes ordered from American manufacturers.

The department did not disclose how many planes the \$1,152,229 covered, nor the ultimate cost of the planes.

1,000,000 BU. WHEAT STORED AT CHURCHILL FALLS

WINNIPEG.—George H. Melvor, chief commissioner of the Canadian Wheat Board announced the Churchill elevator now held sufficient wheat to meet this fall's shipments overseas. Mr. Melvor said that more than 1,000,000 bushels of wheat had been shipped to the port on the Hudson Bay. Three steamers have been chartered to move the wheat.

No grain was shipped into the northern port last year because of the poor Saskatchewan crop, but two vessels moved out with 61,000 left on the previous year.

ANOTHER CAR SPEED RECORD

BONNVILLE SALT FLATS.—Wealthy John Cobb of London surpassed the world's automobile speed record Thursday with a mark of 302.4 miles per hour. He smashed the record of 345.45 miles per hour established here August 27 by Capt. G.E. Eyston, retired British army officer.

Cobb, a new man at high speed racing, flashed through the measured mile at 353.32 going north and 347.16 on the southward run. Eyston's average for the north run was 347.49 and for the south 345.51.

Cobb's record was short-lived, however, and on Friday Capt. Eyston again took the course and flashed his speedometer over the line at an average speed of 338 miles per hour.

CHRONICLE OFFICE TO REMAIN OPEN SATURDAY NIGHTS

The Chronicle office will remain open Saturday evenings for the next few weeks until ten o'clock to allow farmers to transact business with their subscription accounts. If you cannot pay your paper account, call in and let us know the reason.

CARBON TENNIS PLAYERS TAKE FIVE CUPS AT THE DRUMHELLER TENNEY

Win Men's District Singles, Mixed Doubles and Open Doubles

Francis Foxon of Carbon won the Men's District Singles at the postponed Labor Day Tournament at Drumheller, which was continued on September 18th. He defeated H. Beach of Hanna 6-3, 6-0; Don Anderson of Drumheller, 6-3, 6-0; and from S. Costigan, Stettler by default, and defeated N. E. Nash, Carbon, in the semi-final 6-3, 6-2, and Fred Starbuck of Drumheller, in the final 6-3, 6-3.

Nash had reached the semi-final in the event by defeating E. Flett, Drumheller, 6-0, 6-3; E. Code of Drumheller, 6-2, 6-0; and H. Edwards, Carbon, by default.

Norman Nash and Miss Annie Lemay won the District Mixed Doubles by defeating MacLachlan and Miss J. E. Blair, Hanna, 6-1, 6-2; H. Beach and Mrs. Beach, Hanna, 6-3, 6-4; F. Foxon and Miss O'Neill, Drumheller, in the semi-final, 3-4, 6-5, 6-3; and won the final from D. Anderson and Miss M. Connolly, Drumheller, 6-3, 6-4.

In the District Men's Doubles, N.E. Nash and H. Longstaff, Carbon, defeated McGeechie and Rolley, Rosedale 6-1, 6-1; Battis and MacLachlan, Hanna, 6-4, and lost in the semi-final to MacLure and Stevenson, Drumheller, 6-3, 6-4.

Miss A. Lemay and Mrs. Spence of Carbon had previously won the Women's Open Doubles on Labor Day, as Carbon players have won five silver cups in this tournament at Drumheller this year.

LONG YEARS AGO

September 22, 1938

Wheat, Winnipeg Spot, \$1.39.

Commenting last Sunday a bus line between Calgary and Carbon was inaugurated. The bus leaves Carbon every morning at 8 a.m. Mr. Hansen is the operator.

A delegation from the Carbon Bd. of Trade interviewed the Superintendent of the Bank of Montreal this week regarding the erection of a building in Carbon. The superintendent intimated that it was the Bank's intention to erect a building in the spring.

J.A. Connolly has traded his Fort on a new Moon coupe.

At a meeting of the Carbon Curling club on Friday evening it was decided to erect a new building to house two curling teams. In order to finance the project to completion \$1,000 was borrowed privately, and this sum is to be repaid \$200 annually with interest at ten per cent.

CARBON, ALBERTA, THURSDAY, SEPTEMBER 22, 1938

FAIR FLAX CROP

Hodstrom Brothers will begin cutting their crop of flax this week, and according to reports it is expected the yield will average from ten to twelve bushels to the acre. This flax was completely harvested on July 17th and at the time the stand was heavy. However, the crop came along again and with plenty of moisture it has matured rapidly and is ready to cut.

The Hodstrom boys also had their oats completely hauled out and the second growth crop is about ready to cut. A yield of close to 80 bushels to the acre is expected. Other farmers in the hauled area also report good second-growth crop with prospects of large yields.

FARMERS MUST PAY HAIL INSURANCE PREMIUMS ON DELIVERY OF GRAIN CROP

Heavy Prosecutions in Some Areas Follow for Non-Payment

Mr. Fred Henig of the Alberta Hail Insurance Board was in the district this week checking on the premiums and elevators regarding the liens on grain to pay hail insurance premiums.

Mr. Henig pointed out that under the provisions of the Hail Act, and also the Seed Grain Act, that the liens must be paid out of the proceeds of first delivery of grain to the elevator. He also pointed out that in the northern part of the Province farmers were "bootlegging" or selling their grain at distant points and attempting to evade the hail premium deductions. Very heavy penalties have been given to farmers where this has occurred and farmers are urged to follow the provisions of the law and save themselves considerable trouble in dealing with the Board.

Mr. Henig also stated that in Carbon that the Alberta Hail Board did a large business this year, having insured over a million and a half acres of crop. Insurance premium payments were coming in satisfactorily and it was expected that all losses would be met.

LITTLE ITEMS OF LOCAL INTEREST

Mr. and Mrs. Robertson of Calgary spent the week end visiting with Mr. and Mrs. C.A. Cressman.

Lauretta Lemay was taken to the Drumheller hospital last week and operated on for appendicitis and ruptured. She is getting along splendidly.

Another Carbon child to have a surgery operation was little Alex Sherry, son of Mr. and Mrs. Frank Sherry. This was also performed in the Drumheller hospital.

Mr. and Mrs. F.S. Rouleau passed through Carbon over the week end on their way home to Kaslo, B.C., after a three weeks vacation spent at Saskatchewan points.

Charlie Graham received word Saturday of the death of his brother near Olds, and the Graham family attended the funeral in that town Monday.

Mrs. Jas. Ramsay of Calgary is visiting at the home of Mr. and Mrs. B. Ramsay.

Mrs. E. Solens of Edmonton arrived Sunday and spent a few days visiting in Carbon with her parents, Mr. and Mrs. C.H. Nash.

The Lady Roberts' Chapter I.O.D.E. held their first meeting of the season at the home of Mrs. C. Prisen on Monday night.

Mr. and Mrs. Len Foxon were Calgary visitors on Monday.

—Providing that sufficient passengers can be secured a special bus will be available on September 30th to take passengers to the closing-out sale at the E.P. Ranch, near High River. The round-trip fare has been set at \$2.50 and if you are interested kindly get in touch with any agent of Red Bus Lines Ltd.

We were greatly pleased and surprised to receive ten dollars from one of our subscribers who has suffered adverse crops for the past five years, who has rendered him unable to pay his subscription to The Chronicle until this year. When readers like this are housed and pay when they can, we feel that our faith in them has been rewarded.

A. F. McKibbin was a Calgary visitor last Thursday, returning Friday.

We understand that Al Fuller has purchased Mrs. Tait's house next door to the telephone office.

Mr. and Mrs. S. F. Torrance were Calgary visitors Monday.

CONST. W.B. SHAW HAS A ROUGH TIME WITH ROCKYFORD WORKERS

Finally Subdued and Brought Before Police Magistrate

Six harvesters from Nova Scotia ran afoul of the law and were rounded up at Rockyford on September 19th by Const. W.B. Shaw of Carbon, and Const. W.L. Casselman of Irricana, and escorted to Strathmore where they were summoned before Police Magistrate T.M. Wears.

From police reports it was revealed that Ralph Stoen, hotel keeper at Rockyford telephoned Const. Shaw on the evening of September 19th, complaining that a gang of Nova Scotia harvesters were fighting, breaking windows and otherwise disturbing the peace of the citizens. Const. Shaw immediately got in touch with Const. Casselman of Irricana and the two officers of the law proceeded to Rockyford where the arrest of Alex McNeil, Const. W.L. Casselman and P. J. Gillis followed. They were charged with being intoxicated in a public place and disturbing the peace.

When appearing before Magistrate T.M. Wears of Strathmore, Alex McNeil and Angus McDonald, pleaded guilty to the charge of resisting a peace officer and disturbing the peace. They both refused to submit to the police officers they were charged with resisting a peace officer.

When appearing before Magistrate T.M. Wears of Strathmore, Alex McNeil and Angus McDonald, pleaded guilty to the charge of resisting a peace officer and disturbing the peace. They both refused to submit to the police officers they were charged with resisting a peace officer.

Danny McNeil, another of the gang appeared on the same charge and owing to his pleading guilty he was sentenced to a fine of \$20 and costs, or in default, 30 days in jail.

Philip Gillis, a youth of 20, was charged with the same charge and owing to his pleading guilty he was sentenced to a fine of \$20 and costs, or in default, 30 days in jail.

Const. W.B. Shaw has advised The Chronicle that all operators of threshing machines are required to have them licensed under departmental regulations. A number of farmers have not complied with this request and an immediate check-up of the district will be made by Const. Shaw.

Mr. T.H. Ritchie has advised us that he has been appointed to open the central grading station for eggs, which is to be open in Carbon on Monday, September 26th.

This grading station will be equipped with modern grading facilities and there will be a certified grader to grade all eggs as they are delivered. Cash will be paid for all deliveries and prices will be competitive with Calgary prices less all transportation charges.

The organization of this grading station follows legislation recently passed which requires that all dealers in eggs have properly equipped premises with some provision for temperature control, and that all grading be done by a qualified grader.

LESS SHOCK FOR PLANES

Modern synthetic rubber serves a unique application in the fast-growing aeronautics industry. Entirely new principles of shock absorption have become necessary to enable the pilot of the heavier transport planes to land smoothly, and aircraft engineers have designed pneumatic shock absorbers which obtain a greater damping effect by the use of a combination of oil and tar under pressure of from 400 to 1000 pounds. The efficiency of these shock absorbers depends upon the sealing material used, and Neoprene, a synthetic rubber material has been found to be the only substance which will withstand the sudden shocks combined with the deteriorating influence of the oil and grease. Even natural rubber cannot do the job as successfully as this man-made material.

He was a loyal little fellow and he wouldn't let anything said against his father go unchallenged. One Sunday afternoon a boy by the name of "Linton" was talking to his father.

"Did I hear you saying," was the indignant reply. "He's dreaming about a dog, and that's the dog growl!"

CREDIT HOUSE PLAN READY FOR ALBERTA SAYS PREMIER

Announcement that "credit houses" would be set up throughout the province within the next week or two days" was made by Premier William Abernethy when he spoke at the Calgary Prophetic Bible Institute Sunday afternoon.

Without giving any detailed information about how the credit houses would be operated, the premier stated that the plan would allow the farmer to get some form of "bonus" on all wheat and flax stock sold. He expressed the hope that citizens, merchants and wholesalers would support the government in the introduction of credit houses.

THE WORLD OF WHEAT

REVIEWED WEEKLY BY MAJOR H.C.L. STRANGE

"There are so many classes and grades of seed. What is really the best to buy?—A farmer friend asked. There are three main classes of seed with No. 1, 2 and 3 grades within each class:

(a) GENERAL SEEDS OF COMMERCE—Which require a Control Sample Certificate, stating that the seeds are up to certain germination standards, and that they contain no weed seeds, nor seeds of other kinds of grain, than the Seeds Act permits.

(b) CERTIFIED SEED—Which is the same kind of material as (a) excepting that it is a little purer in each grade, and also that the stocks are certified to be true to a high standard of excellence to one specified variety.

(c) REGISTERED SEED—Which again is the same as (b) excepting that it is even purer, and is true to a still higher standard of excellence even than Certified seed.

The best qualities of Registered and Certified seed are contained in each individual sack having been inspected, tagged and sealed by an officer of the Dominion Seed Branch. Certified seed is the sack is more expensive than General Seeds of Commerce, and Registered seed is somewhat more expensive than Certified seed. It is the highest quality seed obtainable.

Following factors have tended to raise prices:

When harvesting losses from extreme heat feared in Russia, French and German wheat supplies will be kept for emergency reserves. Feeding of cheap wheat in Europe will be normal. Spain inquiring for wheat. Estonian wheat and rye crops small. In 1937 Britain requiring to take 50 per cent of Balkan corn surplus.

Following factors have tended to lower prices:

International Institute forecasts record 1938 world wheat crop. General rains do immense good to Argentine crop. U.S. and Canada promising liberal quantities of wheat for export. Russian wheat prices offer considerable price bargains. Italian wheat crop supposedly equal to needs.

Abolition Of Honking

Disappearance Of Horns From Motor Cars Is Foreseen

The eventual disappearance of horns and horn-buttons from motor cars is foreseen by Public Safety, the magazine of the U.S. National Safety Council, which advocates abolition of honking, not only to increase the public comfort but the public safety as well. Virtually every place where horn-blowing has been abolished has seen a drop in accidents. Italy has had anti-horn regulations for the longest time and is completely satisfied with them. It is believed the privilege of honking will never be restored there. Anybody who uses his horn in traffic thereby brands himself (or herself) as a second-class (or worse) driver, says Miller McClinck, traffic expert, quoted by the magazine. A good driver in McClinck's opinion, analyzes the traffic ahead of him so no occasion will arise which will require his use of the horn.

Economical Cattle

Midget Cows Eat Less But Produce More Milk

Otto Gray of Stillwater, Okla., who started experimenting with an undersized breed two years ago, reported his put-sized animals have surpassed other members of his herd in milk production although they consume only half as much feed. The midgets were developed from an undersized Angus cow and a normal Hereford bull, stand from 30 to 37 inches high and weigh from 450 to 500 pounds.

The comic strip artists won't have to go far for material this autumn, what with those new coffee styles and hat models.

SELECTED RECIPES

TART CRANBERRY SALAD

1 package Lemon-Jello
1 cup sugar
1 pint hot water
2 cups raw cranberries
1 cup diced red apples
Dissolve Jello and sugar in hot water. Chill. Put cranberries through food chopper. When Jello is slightly thickened, fold in cranberries and apples. Turn into mold. Chill until firm. Unmold on crisp lettuce or romaine and serve with tart mayonnaise. Serves eight.

SHORTBREAD COOKIES

2 cups flour
1/2 cup St. Lawrence or Durham Corn Starch
1/2 cup icing sugar
1 teaspoon salt
1 cup soft butter
2 tablespoons cream
1 teaspoon vanilla
Cream flour, salt and sugar, add cream and vanilla, then add ingredients well sifted together. Drop by teaspoons on greased cookie tin. Press down with lines of fork. Bake in a moderate oven 325 to 350 degrees F. until very light brown.

Many Will Agree

That Time Off To Recover From Holiday Is Essential

Legislation for human welfare will never be complete until it embraces provisions for compulsory rest cures for returned summer vacationists, says the Los Angeles Times. A man who aches all over from hauling big fish out of the water and whose imagination and tenacity are frayed from telling about the bigger ones that got away can't be expected to hit the ball the day he drags himself back to office, factory or store. A three week rest after a two weeks' vacation would be just about right.

London's telephone clock "Tim," which gives the time to all who call up, earned \$450,000 in tolls last year.

The Bank Of Canada

Is Under Full Ownership And Control Of Government

The Bank of Canada, which was nationalized by the Dominion Parliament during its last session, is the central bank of the Dominion. It was established by an act of Parliament in 1934 and began operations in March, 1935. At the outset it was privately owned, though the government controlled the appointment of the Governor. Two years ago the stock of the bank was increased and the government purchased a controlling share. Retiring the privately owned stock gives the government full ownership and control.

The Bank of Canada is the bankers' bank and the fiscal agent of the government. The commercial banking of the country is carried on by chartered banks, which operate under parliamentary charters and are supervised by a government-appointed inspector-general of Banks.

The chartered banks are ten in number and have nearly 3,400 branches and sub-branches, distributed throughout the provinces and territories of Canada. In addition, they operate 145 branches in the chartered banks have an enviable record for safety, no failure having taken place in the last 15 years.

France Will Use Buses

It Is Necessary To Rush Troops From Paris

The "taxi of the Marne," which helped turn the tide of German invasion 24 years ago, will be replaced with buses if the necessity of rushing troops from Paris ever arises again. The war ministry ordered the Paris Transport Company owner of the capital's buses, to turn over a number of their regular city buses for use in army manoeuvres.

SUNDAY SCHOOL LESSON

SEPTEMBER 25

DAVID; TRIUMPHANT FAITH

Golden text: The Lord is my shepherd; I shall not want. Psalm 23:1.

Devotional reading: Psalm 101:4.

PSALM 23—Jehovah is my shepherd; I shall not want. 2 He maketh me to lie down in green pastures; He leadeth me beside still waters. 3 He restoreth my soul: He guideth me in the paths of righteousness for his name's sake. 4 Yea, though I walk through the valley of the shadow of death, I will fear no evil: for thou art with me: Thy rod and thy staff, they comfort me. 5 Thou preparest a table before me in the presence of mine enemies: Thou hast anointed my head with oil. My cup runneth over. 6 Surely goodness and lovingkindness shall follow me all the days of my life: And I shall dwell in the house of Jehovah for ever.

PSALM 27—Jehovah is my light and my salvation. Whom shall I fear? Jehovah is the strength of my life: of whom shall I be afraid? I shall not be moved, because cometh upon me to eat up my flesh. Even mine adversaries and my foes they stumbled and fell. Though a host should encamp against me, my heart shall not fear: For thou shouldst rise against me. Even then will I be confident. 4 One thing have I asked after: That I may dwell in the house of Jehovah all the days of my life. To behold the beauty of Jehovah. And to inquire in his temple. 5 For in the day of trouble he will keep me secretly in his pavilion. In the covert of his tabernacle will he hide me. He will lift me up upon a rock. 6 And now shall my head be lifted up above mine enemies round about me: And I will offer in his tabernacle sacrifices of joy: I will sing, yea, I will sing praises unto Jehovah.

Judge Came To Rescue

Settled Case Between Debtor And Creditor In Satisfactory Way

Judge T. M. Costello considered so successful a piece of arbitration between a debtor and creditor in division court at Godefrich, Ont., that now he owns two cords of wood for which he paid \$8.85—the amount involved in the debt argument. "I can pay it in wood but I have no cash," the unnamed debtor told the proprietor of a banking establishment seeking payment of the debt. "I can't pay my own accounts with wood," the baker replied. "I want cash."

Then the judge interposed: "Very well. Deliver to me the two cords of wood and I'll pay the money to the bakery." The baker beamed thanks, the debtor grinned his pleasure.

Canadian Films

London Imperial Institute Wants More For Its Library

Sir Harry Lindsay, director of the Imperial Institute at London, England, appealed in an interview for more Canadian films for the institute's film library which illustrates industries, scenery and other aspects of British Empire countries. Although Canadian films occupy the largest single section of the catalogue, Sir Harry hopes to obtain more films during his present visit to the Dominion. Because demands of schools and societies for loan of films far exceed the supply, the institute has not dared to advertise the library's existence as the management know wider publicity would merely swell the number of disappointed applicants, he said.

Afraid Even Of Flowers

Nazis Are Forbidden To Throw Bouquets At Hitler's Car

Germans were not permitted to throw flowers at the motor cars of Adolf Hitler or members of his entourage during the Nazi party rally at Nuremberg. The organizing committee for the gathering decreed: "Throwing of flowers at the Fuehrer's car or cars in his entourage is strictly forbidden because of the danger arising therefrom for the cars' occupants. Storm Troopers must be fully respected. Advancing toward the Fuehrer's car is not permitted in any circumstances, as thereby serious accidents may be caused."

Gets, the traditional wooden foot-wear of Japan, are staging a phenomenal comeback because of the national economic straits.

"Quit Your Skidding!" Is the title of a new book issued by a tire company.

The earth travels about 1,600,000 miles a day on its journey around the sun.

WORLD HAPPENINGS BRIEFLY TOLD

The will of Daniel G. Dolge, died at Pontiac, Mich., for probate, left \$250,000 to his widow, the former Laurine McDonald.

Officials of the Montreal Chinese Patriotic Society announced \$5,000 had been raised for relief of Chinese war refugees in a charitable campaign.

General Malin Craig, United States army chief of staff, said the army had developed new anti-tank guns, which would wipe out an enemy tank offensive.

Canada is one of the three leading flour-exporting countries of the world. It ranks second to Australia, while the United States is in fourth place.

The estate of Robert P. Scripps, publisher, who died last winter, was valued at \$3,033,567 in an appraisal on file.

Sir Henry Page Croft, Conservative member of parliament, returned to London from a survey of immigration prospects in Canada, hopeful of the possibility of settlement of Britons in British Columbia.

Dominion government employees in Ottawa number 12,845 and their annual salaries amount to \$20,600, according to a survey recently completed by the finance department.

A decree signed by King Vittorio Emanuele and Premier Benito Mussolini placed in effect the cabinet decision of Sept. 1 to expel foreign Jews who have settled in Italy since Jan. 1, 1919.

Wheat, fed, or to be fed, to livestock and poultry in Canada during the 1937-38 crop season has been estimated preliminarily at 18,838,000 bushels, as compared with 15,794,000 bushels in the 1936-37 season.

Speaks From Experience

Traded Newspaper Man Says Germany Plans Counter-Attack For War

Germany's every move, political, social and industrial, is toward preparation for the day when a national emergency may arise, G. S. Williams, motoring editor of the Daily Telegraph, Sydney, New South Wales, Australia, said when he visited the Soviet Union. Suleiten Germans in Czechoslovakia are looked upon by most Germans as blood brothers, and German assimilation by Germany at the first opportunity. There is no question in the minds of Germans today, Mr. Williams states, but that Hitler plans to annex Suleiten territory whenever he feels the time is propitious.

Only recently did Germany, where he represented the Royal Automobile Club of Australia at the International Automobile Conference in Berlin, Mr. Williams speaks from experience as a trained newspaperman and chronicler of war, taken throughout the length and breadth of Germany and many of their transportation improvements, including the thousands of miles of what he describes as the most advanced public highways in existence today.

The people of Germany appear well fed, the Australian visitor explained. This he said, was a surprise, as he had heard before their arrival in Germany that there was a shortage of food.

It is true, he explained, that they have their meatless, eggless and butterless days. On such days they are satisfied to use substitutes for these foods—substitutes that their bodies are being trained to assimilate as food for the day when it may be necessary to survive on them.

Manager "I have summed you up, Brown. When I am not here you are the laziest man in the office."

A bullet-proof vest made of nickel, chromium-molybdenum steel, is being worn by Japanese policemen.

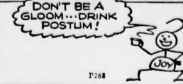

A cucumber four feet one inch long and 1 1/2 inches round has been grown in Vale, England.

JOYS AND GLOOMS

MANY PEOPLE can safely drink tea and coffee. Many others—and all children—should never drink them. If you are one of these, try Postum's 30-day test. Buy Postum and drink it instead of tea and coffee for one

month. Then, if you do not feel better, return the Postum to the store for a full refund. No questions asked. Postum is delicious, economical, easy to prepare, and contains no caffeine.

POOR MAN'S GOLD

COURTNEY RYLEY COOPER

COPYRIGHT-COURTNEY RYLEY COOPER • W.N.U. SERVICE

CHAPTER IV.—Continued

Kay Joyce, trim in polo shirt, farm-cultured breeches, riding boots and red nails of an equal lustre, leaned out.

"Jack," she called. "Don't splash around like that. Hoy in the world will you ever carry mother and me ashore? We'll be simply dripping you old salty."

It was Bruce Kenning, however, who finally carried Kay and her mother ashore. Hammond, all of a sudden, had realized that he was a sullen mess. Then, with the landing of the party, everything became confused; gold seekers crowded about, placer miners waded out to catch the rope which Timmy Moon had tossed to them, that they might knot it to a puntion and anchor the ship. Now Hammond was back in his own cabin, talking excitedly as he changed his clothes.

"Kaye's crazy about the cottage," he volunteered.

McKenzie Joe, squatted on the deck, turned his headless head. "I figured she would be, for awhile."

"What do you mean awhile?"

"They're city people," said McKenzie Joe quietly.

Hammond laughed, lightened his belt, stood innocently a moment, then clawed about him in the half-dark room for a necktie.

"Don't you worry about that. Kay can take it. So can her mother. They like the outdoors."

McKenzie made no direct reply. He only eyed his partner.

"Kind of dressing up, aren't you?"

"Well," said Jack with a grin. "You know—their first night here. We're all going to the Stungumlung to eat. Come along?"

"None?" Joe said half-bravely.

"Little always, aren't you, Joe?" he said at last.

"Not particularly."

A queer feeling of resentment shot through Hammond.

"Joe," he said finally, "what's been eating on you?"

"Nothin' but morquies, I reckon."

"Let's not joke," the younger man said suddenly. "You've been different ever since we came back here."

"Different?" I ain't noticed it, Jack."

"You haven't seemed yourself. Moody-thinking about something all the time. Grouchy, like you had a chip on your shoulder."

"When?" asked Joe.

"The other day, for instance, when Bruce Kenning dropped by our test pit."

"He was asking a lot of questions, wasn't he?"

"Hammond asked his hands."

"Oh, Joe—suppose he was. Can't he be interested in what a friend's doing? You'd think he was

going to jump our claims, the way you act."

"That wouldn't do him much good," the old prospector said, with a masked smile. "Not the way they're turning out."

"Then why be so cagey? We haven't got anything to hide."

"We're got our theory, ain't we, that the big discovery's aint to be found? This stuff that's been turned up ain't nobler 'but chicken feed."

"We've got the richest placer claims along the new bed of Loon creek and we'll be lucky if they bring us fifty thousand dollars."

McKenzie Joe's keen eyes swept the valley. "There's a bonanza around here somewhere, if we ever find that old river bed. The idea's worth keeping to ourselves."

"I suppose so. On the other hand, Kenning's a geologist. It might pay to give him a little information—ever cut him in."

"You moved right along."

Mrs. Joyce regarded her cigarette holder.

"That's what happens when a girl really wants to see a man," she observed calmly. Hammond laughed and could think of nothing to say.

Kay crossed the room and dropped into a chair.

"Now that it's over, I'm tired. There's a chance, 'ouldn't we have dinner served up here?"

Hammond shook his head.

"Nothing like that. It's a matter of getting it when the cook's willing. I'll have two—organized for you in a day or two—I've got a line on a woman who can come here and do the work for you."

"Wonderful," said Mrs. Joyce, with her usual lack of expression.

"And in the meantime," announced Timmy, "we'll eat at the Quik and Dirty and like it."

"When?" asked Mrs. Joyce.

"We're waiting for Bruce Kenning. Mother."

"As usual, we've waited for him for ten years."

"Yes—father always said he was the latest thing in mining men."

Hammond laughed louder than anyone at that. Jokes had been few for him in these long weeks of waiting.

Bruce Kenning was coming in the door. After that, the conversation became jumbled; so much so that Kay, once again, called for help from Timmy Moon, monosyllabic cut-ins by Mrs. Joyce, questions to be answered about the trip. But at last they were down the hill and at the cruddy doorway of the Stungumlung.

For a moment a queer feeling of irritation shot through Jack Hammond. For the first time, he

was talking to talk about.

"Oh, not tonight. You've all got things to talk about."

Hammond watched him stalk away; it was not his imagination, he told himself, which made him feel that Joe was that a queer fellow, most morose at times; working quiet and without response while Hammond plumed enthusiastically for the future, when Kay would be there and Sapphire Lake a city.

"Joe must be getting old," he said at last, and dropping down the steps, hurried through the criss-cross of cabins and tents toward the trail which led to the cottage.

Kay turned from a window and strode toward him with a swinging step which matched her outdoor clothing.

"You old dear!" she exclaimed.

"I thought I'd better hurry back," Hammond explained hoarsely. "Just to be sure you were really here."

"If your ears rang like mine, you'd know we were here," broke in Mrs. Joyce. "Sitting cooped up in that airplane for I don't know how many hours!" She sat cross-legged on one of the two bunk-like beds, poking a cigarette into a long, green holder. Kay cut in.

"But it wasn't frozen, thickly," Kay jibed. She turned from Hammond and leaned over the back of Timmy's chair. She tweaked the pilot's nose. "Always the cheerful little crawler. He's had us amased up a dozen times since we started."

"Well, who wouldn't be careful? Finding a place that hardly exists in a cradle like that old boat of mine."

A fellow's got to think of his responsibilities."

"How many stops did you make getting here?" Jack asked.

"Only a couple," Kay volunteered. "Once at Stewart lake for gas and for Timmy to study his maps. Then again at Fourcross."

"You moved right along."

Mrs. Joyce regarded her cigarette holder.

"That's what happens when a girl really wants to see a man," she observed calmly. Hammond laughed and could think of nothing to say.

Kay crossed the room and dropped into a chair.

"Now that it's over, I'm tired. There's a chance, 'ouldn't we have dinner served up here?"

Hammond shook his head.

"Nothing like that. It's a matter of getting it when the cook's willing. I'll have two—organized for you in a day or two—I've got a line on a woman who can come here and do the work for you."

"Wonderful," said Mrs. Joyce, with her usual lack of expression.

"And in the meantime," announced Timmy, "we'll eat at the Quik and Dirty and like it."

"When?" asked Mrs. Joyce.

"We're waiting for Bruce Kenning. Mother."

"As usual, we've waited for him for ten years."

"Yes—father always said he was the latest thing in mining men."

Hammond laughed louder than anyone at that. Jokes had been few for him in these long weeks of waiting.

Bruce Kenning was coming in the door. After that, the conversation became jumbled; so much so that Kay, once again, called for help from Timmy Moon, monosyllabic cut-ins by Mrs. Joyce, questions to be answered about the trip. But at last they were down the hill and at the cruddy doorway of the Stungumlung.

For a moment a queer feeling of irritation shot through Jack Hammond. For the first time, he

was talking to talk about.

"Oh, not tonight. You've all got things to talk about."

Hammond watched him stalk away; it was not his imagination, he told himself, which made him feel that Joe was that a queer fellow, most morose at times; working quiet and without response while Hammond plumed enthusiastically for the future, when Kay would be there and Sapphire Lake a city.

"Joe must be getting old," he said at last, and dropping down the steps, hurried through the criss-cross of cabins and tents toward the trail which led to the cottage.

Kay turned from a window and strode toward him with a swinging step which matched her outdoor clothing.

"You old dear!" she exclaimed.

"I thought I'd better hurry back," Hammond explained hoarsely. "Just to be sure you were really here."

wondered what Kay would think of these crude surroundings which she would find on every side, the lack of comforts of civilization. But the answer came almost as soon as his mental question. Kay, Timmy and her blonde head and glanced about her at the sloping log building, with its gleams of windows of glass, settling, its faint illumination of two ancient oil lamps, its vague form seated at rough tables, dimly discernible through the rattled door.

"Isn't it cute?" she exclaimed. "Just like a movie set. Look, Mother, it's simply gorgeous."

"Gorgeous is hardly the word," came the acidulous reminder from the angular Mrs. Joyce.

"Well," Hammond laughed with relief, "at least it's unique. Set this down in the main street of an American city and you'd have a crowd around it in five minutes."

Suddenly he drew back. "Oh, Kay," "Yes," she turned from the door.

"Here's someone I'd like you to meet."

Jeannie Towers was approaching, and she, who had cranked up August 27 disclosed a fault which caused her to break her back while landing.

The fault had been corrected in the batons No. 2 which has been tested successfully.

The second Albatross is expected to start soon a series of long distance tests, preparatory to a trans-Atlantic hop with which Imperial Airways will resume its interrupted North Atlantic research program.

Imperial Airways proudly pointed to the "Hercules," veteran air liner which established a world mileage record on its "birthday," having flown a total of 1,250,000 miles, equal to 50 times around the Equator, and has carried 95,000 passengers without making an emergency landing or injuring any passenger.

Life On The Farm

Farmers Have Lower Death Rate Than Business Or Professional Men

If you would live to a ripe old age go to or remain on the farm.

This is one of the interesting findings of a study covering ten years of the American States. Agricultural workers in the states studied were shown to have a much lower death rate than successful business and professional men.

The mortality rate of agricultural workers per 1,000 population, between the ages of 15 and 64, was 6.2 per cent. That of professional men was seven per cent. The highest rate, 13.1 per cent, was for unskilled workers, while the rate for all classes was 8.7 per cent. Contributing factors to the high death rate in the unskilled class include diet, housing, amount of medical care, contact with infected persons and low income. Tuberculosis and pneumonia were the two most outstanding causes, with accidents ranking third.

Two members of the English House of Commons do not take the salary of \$2,000 a year which is due them.

The watus attains a weight of one and one-half tons.

Her brood of eight cygnets dying from a rare disease, a swan refused to leave her nest at Eton College, England, or to allow anyone to approach. After two weeks college employees put a fence around the nest so the feathered mother could have complete solitude.

The women of Walcheren, Holland, wear gold ornaments on their heads to indicate the village from which they come on market days.

Sanflowerers are descendants of the rose.

Thomas Jefferson wrote his own epitaph.

Railways In India

Dead In Remarkable Way With Rush Of Pilgrim Trains

Richard Halliburton says his first year ago as freely that in writing of his experiences he gave out the impression that the railway system was rather loosely run.

Automobiles are not so plentiful in that country and the trains get the bulk of the travelling business when crowds want to converge upon any one point.

The Kumbh mela attracts devout Hindu pilgrims from all over the country so it is considered a most auspicious moment for a bath in the holy Ganges. It falls once in 12 years.

Some remarkable facts and figures have been issued illustrating the achievement of the East Indian Railway in dealing with the phenomenal rush of pilgrim traffic to the Kumbh mela at Harwar, recently concluded.

The highest figures for any one day for inward and outward traffic were:

Inward—41 special trains, 7 regular trains—Total number of passengers 68,000.

Outward—11 special trains, 7 regular trains—Total number of passengers approximately 50,000.

On an average each special train provided accommodation for 1,500 passengers.

During the mela period from March 10 to April 13 a total of 247 special trains were run to Harwar and no fewer than 543,735 passengers detained at that station.

Happy Ending

Father And Child Re-United After Thirty-Six Year Separation

A sheet of sacred music bearing the composer's name is bringing a father and daughter together in a trans-Atlantic reunion.

LAVISH PAYMENTS TO PRODUCERS IN STATES

There is a certain amount of talk of a possible high cost to the Canadian government because of the fixing of a minimum 80c price for wheat delivered to the Wheat Board during the current crop year. Critics of the minimum price should take a look at what the United States is doing for its wheat producers. The wheat farmers of the state of Kansas alone will get \$15,000,000 in government payments this year and can earn \$10 million in wheat benefits on the 1933 crop if all of them co-operate fully in the AAA program calling for state to reduce its seedlings 6,500,000 acres this fall.

The average wheat seedlings in the United States from 1928 to 1932 were 67 million acres while the seedlings for the current year's crop total 81 million acres. The AAA plan is to have the acreage down to 55 million for the 1933 crop.

RALPH CONNOR'S GREATEST BOOK NOW IN SERIAL FORM

It is seldom that so great a book as Ralph Connor's "Postscript to Adventure" is made available to readers in serial form immediately following its publication. The fact, therefore, that the Family Herald and Weekly Star has secured exclusive publishing rights for this book is indeed interesting news.

"Postscript to Adventure" as many admirers of the late Ralph Connor will know, is the last book he wrote having been completed just before he died. It is an amazing tale built around his lifetime of rich experiences from his boyhood days in Glenora County, Ontario, to his breath-taking adventures during the World War.

Critic's have called it his most exciting book—so thrilling as "The Sky Rider." The Family Herald and Weekly Star is to be congratulated on its foresight in purchasing the rights for "Postscript to Adventure," thus making it possible for over a million readers to enjoy this great book inexpensively, in serial form.

IN FAR-OFF AUSTRALIA

In neither Canada nor Australia have governments or the public faced up to the issue that their level of wheat production is geared up far too high—beyond the demands of importing countries.

The above statement was made by Hon. T. H. Bath, in the Australian Primary Producers in the course of an argument in favor of a home price for wheat in Australia. In all the wheat growing states of Australia Mr. Bath says, producers of wheat are demanding to come under the umbrella of high protection and basic wage regulation by means of a compensation price for that portion of their product consumed within Australia. "A home price for wheat" is their slogan. "Continuing, Mr. Bath states: 'It is a legitimate demand and the state promoters recognized the force behind it in their decision to meet and consider the best means of applying the policy of protection to the wheat grower in the same way as is done to secondary industries and to labor.'"

In discussing the current wheat situation, Mr. Bath says the plain truth is that the two factors of supply and demand are so much out of balance that the only time when wheat producers in countries and Canada and Australia can hope to secure prices approximating the cost of production is when a major calamity of drought or some other kind of disaster affects two or more large wheat producing areas of the world.
